CERTIFICATE OF INTERNSHIP

To Whomsoever It May Concern

R. Sai Dheeraj

WEB DEVELOPMENT INTERN

This is to certify that R. Sai Dheeraj has successfully completed his internship with RootedLabs during the period May 2026 to July 2026. During the internship, he contributed to web development and an AI-powered learning platform, demonstrating sound technical skills, problem-solving ability, ownership of assigned responsibilities, and a clear interest in building practical solutions for education technology.

KEY CONTRIBUTIONS

- **Independent product delivery:** Designed, developed, and deployed the official RootedLabs website from scratch.
- **AI-powered learning:** Contributed to the AI-powered learning platform and its core product features.
- **User-focused development:** Built scalable features for students, teachers, parents, and school administrators.
- **Requirement translation:** Translated product and education requirements into maintainable software solutions.
- **Reusable architecture:** Developed reusable components and followed sound component architecture practices.
- **Performance & experience:** Worked on performance optimization, responsive design, and smooth user experience.

KEY AREAS

Web Development • AI-Powered Education • EdTech • Responsive Development • Product Engineering • Component Architecture • Performance Optimization

RECOMMENDATION

"During his internship, Sai demonstrated strong commitment, technical interest, and a responsible approach to assigned work. He consistently showed initiative, ownership, a willingness to learn, and a collaborative mindset. His contributions to web development and education technology solutions reflected practical engineering discipline and a focus on user needs."
